

707 Wilshire, Los Angeles, CA

Aon Center is a 62-story, 860 ft (260 m) Modernist office skyscraper at 707 Wilshire Boulevard in downtown Los Angeles, California. Site excavation started in late 1970, and the tower was completed in 1973. Designed by Charles Luckman, the rectangular bronze-clad building with white trim is remarkably slender for a skyscraper in a seismically active area. It is the third tallest building in Los Angeles, the fourth tallest in California, and the 58th tallest in the United States. The logo of the Aon Corporation, its anchor tenant, is displayed at the top in red.

Aon Center was originally named the United California Bank Building from its completion in 1973 until 1981, when it became First Interstate Tower. During the 1984 Summer Olympics the 1984 Olympic logo was displayed on the north and south sides of the building's crown, as First Interstate Bank was a major sponsor of the games. It was the tallest building west of the Mississippi River when built, until 1982 when it was surpassed by the Texas Commerce Tower (now known as JPMorgan Chase Tower) in Houston. Upon its completion in 1973, the building was the tallest in the world outside of New York and Chicago. It remained the tallest building in Los Angeles until 1989, when Library Tower (now U.S. Bank Tower) was completed. Between 1998 and 2005, there were no logos on the building.

Vertical: Commercial Real Estate

Owner/Manager: [Shorenstein Properties](#), 707 Wilshire

Operational Date: 12/15/17

Contact: Denise Tonini, Denise.Tonini@aus.com

Building Information

Specifications

- 1.1 M Sq Ft
- 62 Floors
- 875 Tenants
- 6 Banks
- 29 Elevators
- 1 Frieghts

Major Tenants

- Microsoft
- Proskauer
- eMarketer
- Moore Capital Management
- Axovant
- Synechron
- BT Americas Inc.
